

PERACID FORTE

Concentrated low temperature bleaching & hygiene additive

Application

- General bleaching liquid.
- Peracetic acid based bleaching active.
- Chemical disinfection at 40°C.
- Chemical-thermal disinfection between 60°C and 70°C.
- Suitable for both cotton and polyester-cotton.
- For use in soft water.

Properties

- Delivers excellent bleaching performance between 40°C and 75°C.
- Delivers anti-bacterial, anti-fungal, anti-viral hygiene benefits.
- The product can wash effectively at 40 – 60°C for the different degrees of soiling.

Use instructions

Recommended dosage level:

0.7 ml Peracid Forte per l water (= 3.9 g/kg textile),

15 min at 60 °C or 10 min at 70°C (fabric to water 1 : 5).

Chemical disinfection at 40°C: 2 - 4 g/l SeloX Micran (= 8 – 16 g/kg textile), 6 ml/l Peracid Forte (= 26.4 g/kg textile), 10 minutes, 40 °C, (fabric to water 1:4).

Composition according EC-directive

- < 5% Phosphonates
- > 30% Oxygen bleach

Physico-chemical properties

Density (20 °C): 1.1 g/ml
pH-value (neat): 0.5

Environment

- Chlorine free, i.e. no AOX contribution.
- Readily biodegradable.
- COD-value: 365.690 mg/kg.

Safety & transport

GHS02 GHS05 GHS07 GHS09

UN 3109

Meets European directives on the classification, packaging and labelling of dangerous chemical substances and preparations.

Storage

Use above 5°C. Store above -20°C and below 35°C.

Packaging

Canister	22 kg
Drums	220 kg
Container	1050 kg
