

## PRO-FIT BODY Aquawave

Liquid finishing agent exclusively developed for wetcleaning

### Application

- Exclusively developed for wet cleaning application.
- Finishing agent for synthetic and delicate fabrics. Restores the touch and looking of delicate textiles (wool, silk,...) and make them shinny and smooth.
- To be used in soft water.
- Suitable for automatic dosing.

### Properties

- Based on a mixture of polymers to restore the aspect of delicate garments and make garments shinny and smooth.
- Puts a silicone film on the fibres, which reduces wrinkling, allows to completely dry delicate garments and facilitate the ironing.
- Reduces the build-up of static charges.
- Restore the most delicate fibres, also at low temperature and short time cycles.
- No staining on coloured fabrics.

### Use instructions

Recommended dosage :

3 - 5 ml/kg dry fabrics (water 1 : 4).

Use in the last rinse for 3 – 5 min.

Application temperature: 20° –40°C.

### Physico-chemical properties

Density: 1000 kg/m<sup>3</sup>

pH (100%): 7.4

Viscosity: 5 mPa.s

### Composition and Safety

< 5 % Non-ionic surfactants, polymers

Perfume

Not dangerous

Meets European directives on the classification, packaging and labeling of dangerous chemical substances and preparations.

### Storage

Use above 5°C. Store above 0°C.

### Packaging

Canister 20 kg

Drum 200 kg
